

Evidence-backed platform assessment

Transcript-first assessment, from interviews to executive-ready outputs.

8

stage pipeline, Ingest to Publish

4

design tracks

100%

findings traced to source

1

Business Focus Pack

Executive-ready assessment of business priorities and friction.

2

Technical Catalog

Structured technical findings across environment, layers, security, governance.

3

Friction and ROI roadmap

Friction calculations and a prioritised, ROI-aligned roadmap.

4

Evidence appendix

Every finding linked back to its source evidence.

Why LEIT

- Transcript-first evidence, grounded in interviews and source artifacts.
- Repeatable artifact pipeline with decision-grade outputs, not a tooling demo.
- Routes into delivery - priorities flow to the Business Value Accelerator.
