Security Posture by Domain

LEIT Security Package - identity and access review and posture score

What you get

- Coverage - 6 domains, 21 controls, 8 frameworks, 177 mappings.
- Evidence - exportable, audit-ready compliance packs.
- Remediation - SQL remediation guidance for each finding.

Why LEIT

- Native and continuous - runs inside Snowflake, not point-in-time.
- Built for UK and EMEA regulated sectors.
- Framework-mapped evidence, not raw control output.
